experiments

word searches

What is this resource and how do I use it?

If your child is confident using a range of methods for addition and subtraction with larger numbers as well as decimals, challenge them with these word problems. There's a range of problems which will give your child's skills a good workout! Encourage them to write down their workings and methods so you can both look over them together.

What skills does this practise?

Addition and Subtraction

Larger Numbers and Decimals

Problem-Solving

Further Activity Ideas and Suggestions

Visit [this page](#) for more maths activities for your year 6 child. They could learn about patterns and sequences with this [investigation](#) or this [activity booklet](#). This [Code-Cracking Treasure Hunt Activity](#) is great fun! Cooking fans will enjoy this [Ratio Recipe Booklet](#) and these [temperature activities](#).

Addition and Subtraction Word Problems

1

The city of Hightown has 754,013 inhabitants. They have been asked to vote on the new name for the shopping arcade. Most people turn up to vote in person. Some send their votes by post, but these haven't been received yet. The votes in person come in as follows:

Arcade Name	Total Votes in Person
Loxton's Arcade	228 386
Flame Shopping Centre	91 327
Two Bridge Complex	
Meadow Mall	124 789
Total Votes in Person	601 718

a) Calculate the missing information.

Addition and Subtraction Word Problems

b) How many people voted for a name with three words?

c) How many people did not vote or voted by post?

Addition and Subtraction Word Problems

d) How many more people voted for Loxton's Arcade than Flame Shopping Centre?

Addition and Subtraction Word Problems

2

The name of the new shopping arcade will be made out of light-up letters. Each letter is a different price because each letter takes a different amount of time to make - some letters are easier to make than others. Here is the price list for the letters:

a	lower-case letter	£23.56
	capital letter	£65.59
b	lower-case letter	£23.20
	capital letter	£56.41
c	lower-case letter	£22.40
	capital letter	£52.23
d	lower-case letter	£23.20
	capital letter	£51.18
e	lower-case letter	£21.78
	capital letter	£57.34
f	lower-case letter	£24.03
	capital letter	£63.28
g	lower-case letter	£24.33
	capital letter	£62.89
h	lower-case letter	£23.87
	capital letter	£53.59
i	lower-case letter	£21.96
	capital letter	£49.67
j	lower-case letter	£23.16
	capital letter	£53.52
k	lower-case letter	£25.46
	capital letter	£62.07
l	lower-case letter	£20.55
	capital letter	£49.88
m	lower-case letter	£25.98
	capital letter	£62.62
'	apostrophe	£5.10

n	lower-case letter	£24.65
	capital letter	£65.45
o	lower-case letter	£22.02
	capital letter	£49.55
p	lower-case letter	£23.20
	capital letter	£53.35
q	lower-case letter	£23.20
	capital letter	£55.45
r	lower-case letter	£22.04
	capital letter	£62.47
s	lower-case letter	£25.24
	capital letter	£60.69
t	lower-case letter	£22.45
	capital letter	£58.77
u	lower-case letter	£22.05
	capital letter	£58.24
v	lower-case letter	£22.87
	capital letter	£52.08
w	lower-case letter	£25.22
	capital letter	£62.25
x	lower-case letter	£24.30
	capital letter	£54.76
y	lower-case letter	£24.56
	capital letter	£62.23
z	lower-case letter	£21.98
	capital letter	£59.45

Addition and Subtraction Word Problems

Calculate the prices for each of the suggested names of the arcade.

Some of the units within the arcade need to be reconfigured in order to be turned into shops. The company has £500 000 to spend on this. This is the price list for reconfigurations:

Unit	Reconfiguration Details	Price
1	add in a new kitchen to make a restaurant and cafe	£243 554
2	remove shelving and move electrics to create a seating area	£194 023
3	remove walls to make an open plan shop area with air conditioning	£110 116
4	replace flooring and change windows to make them tinted	£184 352
5	remove old lift shaft and insert escalator to join floors	£211 509

a) How much money will be left if the company completes the work on units 2, 3 and 4?

Addition and Subtraction Word Problems

b) How much more money will the company need if they decide to complete the work on units 3, 4 and 5?

c) How much more expensive would it be to complete the work on the three cheapest options than the two most expensive options?

Addition and Subtraction Word Problems

d) The company receives a donation of £450 000. Sophia, the company director, says, "Now we can do all of the work and we'll have £6546 left."

Is she correct?

Addition and Subtraction Word Problems Answers

1.

a) Calculate the missing information.

Arcade Name	Total Votes In Person
Loxton's Arcade	228 386
Flame Shopping Centre	91 327
Two Bridge Complex	157 216
Meadow Mall	124 789
Total Votes In Person	601 718

b) How many people voted for a name with three words?

$$91\,327 + 157\,216 = 248\,543$$

c) How many people did not vote or voted by post?

$$754,013 - 601\,718 = 152\,295$$

d) How many more people voted for Loxton's Arcade than Flame Shopping Centre?

$$228\,386 - 91\,327 = 137\,059$$

2.

Loxton's Arcade

$$\text{Loxton's: } £49.88 + £22.02 + £24.30 + £22.45 + £22.02 + £24.65 + £5.10 + £25.24 = £195.66$$

$$\text{Arcade: } £65.59 + £22.04 + £22.40 + £23.56 + £23.20 + £21.78 = £178.57$$

$$\text{Total: } £195.66 + £178.57 = £374.23$$

Flame Shopping Centre

$$\text{Flame: } £63.28 + £20.55 + £23.56 + £25.98 + £21.78 = £155.15$$

$$\text{Shopping: } £60.69 + £23.87 + £22.02 + £23.20 + £23.20 + £21.96 + £24.65 + £24.33 = £223.92$$

$$\text{Centre: } £52.23 + £21.78 + £24.65 + £22.45 + £22.04 + £21.78 = £164.93$$

$$\text{Total: } £155.15 + £223.92 + £164.93 = £544$$

Addition and Subtraction Word Problems Answers

2.

Two Bridge Complex

Two: £58.77 + £25.22 + £22.02 = £106.01

Bridge: £56.41 + £22.04 + £21.96 + £23.20 + £24.33 + £21.78 = £169.72

Complex: £52.23 + £22.02 + £25.98 + £23.20 + £20.55 + £21.78 + £24.30 = £190.06

Total: £106.01 + £169.72 + £190.06 = £465.79

Meadow Mall

Meadow: £62.62 + £21.78 + £23.56 + £23.20 + £22.02 + £25.22 = £178.40

Mall: £62.62 + £23.56 + £20.55 + £20.55 = £127.28

Total: £178.40 + £127.28 = £305.68

3.

- a) How much money will be left if the company completes the work on units 2, 3 and 4?

£194 023 + £110 116 + £184 352 = £488 491

£500 000 - £488 491 = £11 509

- b) How much more money will the company need if they decide to complete the work on units 3, 4 and 5?

£110 116 + £184 352 + £211 509 = £505 977

£505 977 - £505 977 = £5977

- c) How much more expensive would it be to complete the work on the three cheapest options than the two most expensive options?

three cheapest options: £194 023 + £110 116 + £184 352 = £488 491

two most expensive options: £243 554 + £211 509 = £455 063

£488 491 - £455 063 = £33 428

- d) The company receives a donation of £450 000. Sophia, the company director, says, "Now we can do all of the work and we'll have £6546 left."

Is she correct?

£500 000 + £450 000 = £950 000

£243 554 + £194 023 + £110 116 + £184 352 + £211 509 = £943 554

£950 000 - £943 554 = £6446

Sophia is wrong. The company would have £6446 left, not £6546.
