

# Be the Teacher

For this task, you are going to imagine that you are the teacher.

Look at the calculations that Halim has completed. Complete your own calculation next to Halim's work so you can work out whether his answers are correct or incorrect. Mark them with a tick or a cross.

For any incorrect answer, circle where Halim made his first mistake and write a comment for him explaining his mistake. The first one has been done as an example.

[illegible]

**Comment: When you subtracted  $480$  ( $40 \times 12$ ) from the dividend ( $564$ ), you wrote the digits  $4$  and  $8$  in the tens and ones columns rather than the hundreds and tens columns. This meant that you subtracted  $4 \times 12$  ( $48$ ) from the dividend ( $564$ ) rather than  $40 \times 12$  ( $480$ ).**

# Be the Teacher **Answers**

[illegible]

Comment:  **$147 \div 21 = 7$ , not 6.**

|    |   |   |                           |                  |   |                                                                                     |    |  |   |   |              |                |   |  |  |  |  |
|----|---|---|---------------------------|------------------|---|-------------------------------------------------------------------------------------|----|--|---|---|--------------|----------------|---|--|--|--|--|
| 4) |   |   |                           | 2                | 0 |  | 4) |  |   |   | 3            | 4              |   |  |  |  |  |
|    | 2 | 4 | 8                         | 1                | 6 |                                                                                     |    |  | 2 | 4 | <del>7</del> | <sup>1</sup> 1 | 6 |  |  |  |  |
|    |   | - | 7                         | 2                | ↓ |                                                                                     |    |  |   | - | 7            | 2              | ↓ |  |  |  |  |
|    |   |   | <sup>0</sup> <del>1</del> | <sup>1</sup> (1) | 6 |                                                                                     |    |  |   |   |              | 9              | 6 |  |  |  |  |
|    |   | - | 1                         | 9                | 6 |                                                                                     |    |  |   | - |              | 9              | 6 |  |  |  |  |
|    |   |   |                           | 2                | 0 |                                                                                     |    |  |   |   |              | 0              |   |  |  |  |  |

**Comment: When you worked out  $816 - 720$ , you calculated 2 tens - 1 tens. You should have exchanged 1 hundred for 10 tens so  $816 - 720 = 96$ , not 116. Also, the answer should be the quotient (the number of groups of the divisor that are equal to the dividend), not the remainder.**

|----|---|---|--------------|----------------|---|---|--|--|--|----|---|---|---|---|---|---|--|--|--|
| 5) |   |   |              | 4              | 5 |   |  |  |  |    |   |   |   |   |   |   |  |  |  |
|    | 1 | 7 | <del>6</del> | <sup>1</sup> 6 | 5 |   |  |  |  |    |   |   |   |   |   |   |  |  |  |
|    |   | - | 6            | 8              | ↓ |   |  |  |  |    |   |   |   |   |   |   |  |  |  |
|    |   |   |              | 8              | 5 |   |  |  |  |    |   |   |   |   |   |   |  |  |  |
|    |   | - |              | 8              | 5 |   |  |  |  |    |   |   |   |   |   |   |  |  |  |
|    |   |   |              |                | 0 |   |  |  |  |    |   |   |   |   |   |   |  |  |  |
|    |   |   |              |                |   |   |  |  |  |    |   |   |   |   |   |   |  |  |  |
| 6) |   |   | 2            | 8              | 9 | 0 |  |  |  | 6) |   |   | 2 | 8 | 9 |   |  |  |  |
|    | 1 | 5 | 4            | 3              | 3 | 5 |  |  |  |    | 1 | 5 | 4 | 3 | 3 | 5 |  |  |  |
|    |   | - | 3            | 0              | ↓ | ↓ |  |  |  |    |   | - | 3 | 0 | ↓ | ↓ |  |  |  |
|    |   |   | 1            | 3              | 3 | ↓ |  |  |  |    |   |   | 1 | 3 | 3 | ↓ |  |  |  |
|    |   | - | 1            | 2              | 0 | ↓ |  |  |  |    |   | - | 1 | 2 | 0 | ↓ |  |  |  |
|    |   |   |              | 1              | 3 | 5 |  |  |  |    |   |   |   | 1 | 3 | 5 |  |  |  |
|    |   | - |              | 1              | 3 | 5 |  |  |  |    |   | - |   | 1 | 3 | 5 |  |  |  |
|    |   |   |              |                |   |   |  |  |  |    |   |   |   |   |   |   |  |  |  |

Comment: **When you wrote the quotient (the answer), the 2 should have been in the Hundreds column rather than the Thousands column because you subtracted  $200 \times 15$  (3000) from the dividend, not  $2000 \times 15$ . As the place value of all the digits in the quotient were in the wrong place value column, your answer was 10 times too big.**
